PRODUCT OVERVIEW

The ProKitchen Series Utility Trolley Cart is a commercial kitchen transport unit designed for restaurants, hotels, catering operations, and janitorial applications. It is used for moving bus tubs, dry ingredients, janitorial supplies, and general utility items within commercial kitchen environments.

The cart is constructed using stainless steel material with a silver finish. It features a 3-shelf structure with shelf size of 17" x 30", providing organized storage space for handling and transport tasks in food service operations. Raised shelf ledges are included to support item placement on each level.

This utility trolley cart has dimensions of 33" (L) x 21" (W) x 37" (H) and supports a loading capacity of 330 lb. It is built for structured movement of commercial kitchen supplies and operational materials across service areas.

It is equipped with 4 casters (5 in size), including 2 casters with brakes for controlled positioning. It includes NSF Certified construction and comes with a 1-year warranty by the manufacturer.
