WARRANTY

1 Year Limited Warranty

SPECIAL FEATURES

- **Wide Voltage Input**
  100/240 V input with 50/60 Hz frequency suits commercial kitchen electrical systems.
- **DC Output Power**
  24VDC / 0.28A / 6.7 W output supports compatible LED lighting components.
- **Single Unit Supply**
  Provided as one unit for servicing or replacement requirements.
- **Low Current Rating**
  0.15 A input current provides a defined electrical specification for installation.
- **LED Power Supply**
  Listed as an LED power supply for lighting use in commercial kitchen equipment.
- **Limited Warranty**
  Includes a 1-year limited warranty by the manufacturer as specified.

PRODUCT OVERVIEW

The Medal Equipment LED power supply is designed for commercial kitchen equipment that operates low-voltage LED lighting in restaurants, foodservice counters, and refrigerated units. Classified as an LED power supply, it functions as an electrical conversion component for lighting systems. The unit is intended for routine replacement and servicing in commercial kitchen environments.

This power supply accepts an input voltage range of 100/240 V with a frequency of 50/60 Hz, aligning with common electrical systems used in commercial kitchens. The input current is rated at 0.15 A, providing a defined reference for electrical compatibility during installation and maintenance.

The unit provides a power output of 24VDC / 0.28A with a total output of 6.7 W, converting AC input to regulated DC output for LED lighting components. These output values define the electrical characteristics required for compatible LED applications in food handling and storage equipment. The type is listed specifically as an LED power supply.

Manufactured by Medal Equipment, this LED power supply is supplied as a single unit for direct installation or replacement. It is intended for use with LED lighting systems installed in commercial kitchen equipment. It includes a 1-year limited warranty by the manufacturer, providing stated coverage for the defined period.
