 Operates on 208/230 V, 1 phase, 60 Hz electrical system with hardwired connection.
- Door Security System**
 1 solid door with keyed lock system for controlled access in storage environments.
- Pressure Control Feature**
 Heating wire and pressure relief vent included for controlled internal pressure balance.
- Certified Build & Warranty**
 UL Listed US, NSF Listed, DOE certifications with multi-layer warranty coverage.

PRODUCT OVERVIEW

PolarBox Series Walk-In Freezer designed for commercial kitchen cold storage and food preservation environments. Constructed with white galvanized steel panels and 24 gauge sheet material for structural rigidity. Includes CFC & HFC free material type with polyurethane insulation material, 4 in insulation thickness, and R-28 thermal resistance for temperature retention in commercial refrigeration applications.

This unit operates on 1 phase, 60 Hz electrical supply with 208/230 V voltage and hardwired plug type connection. Designed for indoor and outdoor usage in commercial kitchens and food storage facilities. Supports top mounted refrigeration configuration for compact footprint installation. Includes condensing unit and evaporator for complete refrigeration setup in food service environments.

Equipped with 1 solid door featuring keyed lock access for controlled entry in commercial kitchen operations. Door system uses modular cam-lock and tongue & groove hinge type construction for panel alignment. Includes self-closing mechanism, flush-mounted door design, heating wire system, and pressure relief vent for controlled internal pressure behavior.

Built in 12 ft nominal width and 15 ft nominal depth configuration with 7 ft nominal height structure. Physical dimensions include 138 in width, 177 in depth, and 91 in height. Supported by UL Listed US, NSF Listed, and DOE certifications. Warranty structure includes 10-year panel coverage, 2-year compressor & parts, 1-year door parts, and 1-year labor on refrigeration unit.
