- ✔ **Digital Dial Control**
Features a digital dial with manual temperature control and two programmed settings for repeated kitchen tasks.
- ✔ **Compact Dimensions**
Measures 8" x 9" x 12", supporting installation in under sink areas within commercial kitchen spaces.
- ✔ **Warranty Coverage**
It includes a 1-year warranty by the manufacturer along with a bottom access design for maintenance access.

PRODUCT OVERVIEW

The ChefPro Series Hot Water Dispenser is an electric unit designed for chefs and staff in a commercial kitchen requiring controlled hot and cold water access. It operates on 110 V with 60 Hz and uses 1300 W power, supporting consistent heating for food handling tasks. The unit features a digital dial control with manual temperature adjustment and includes two programmed settings for routine operation.

This digital hot and cold style dispenser has a capacity of 2.5 qt and delivers an output of 60+ cups per hour, supporting repeated use in restaurant environments. The temperature range spans from 140°F to 208°F, providing flexibility for various kitchen applications. Its under sink installation type supports organized layouts in commercial kitchen workspaces.

Constructed with brass, copper, and stainless steel, the unit includes a stainless steel tank suited for daily food service use. The silver finish aligns with standard kitchen equipment. It includes a brushed nickel dual-lever faucet, supporting separate control for hot and cold dispensing.

The dispenser measures 8" (W) x 9" (D) x 12" (H) and features a bottom access design for maintenance access. The wall or floor mount mounting style supports flexible installation in restaurant setups. It includes a 1-year warranty by the manufacturer.
