WARRANTY

10-Year Panel, 1 Year
Door Parts

SPECIAL FEATURES

- ✓ Durable Construction**
 24-gauge white galvanized steel panels provide long-lasting strength for demanding commercial environments.
- ✓ Efficient Insulation**
 4-inch polyurethane panels with R-28 cooler / R-33 freezer thermal resistance maintain steady temperatures while minimizing energy loss.
- ✓ Reliable Operation**
 Hardwired connection delivers consistent performance for both the cooler and freezer sections.
- ✓ Secure Access**
 Solid swing doors with keyed locks and flush-mounted, self-closing design protect contents and help maintain stable internal temperatures.
- ✓ Frost Prevention**
 Freezer section features a heating wire and pressure relief vent to reduce ice buildup and maintain proper air balance.
- ✓ Quick Installation**
 Modular cam-lock panels with tongue-and-groove design allow fast assembly and a tight, eco-friendly seal with CFC- and HFC-free materials.
- ✓ Heavy-Duty Flooring**
 Floor supports heavy loads while remaining hygienic and easy to clean.
- ✓ Comprehensive Warranty**
 10-year panel warranty and 1-year door parts warranty provide dependable long-term support.

PRODUCT OVERVIEW

The PolarBox Series Walk-In Freezer & Cooler Combo Box is ideal for commercial kitchens requiring both freezer and cooler storage in one compact unit. The freezer section measures 79 inches in length for deep freezing, while the cooler section is 138 inches long for standard refrigeration. Overall dimensions are 18 ft (L) × 10 ft (W) × 7 ft (H), offering ample storage capacity.

Built in America from durable 24-gauge white galvanized steel, the unit features flooring and 4-inch-thick polyurethane insulation for strong temperature retention. Its modular cam-lock, tongue-and-groove design allows quick assembly and provides a tight seal. All panels are CFC- and HFC-free, supporting eco-friendly operation with long-lasting durability.

Solid swing doors are self-closing, flush-mounted, and equipped with keyed locks for security and stable temperature control. The freezer section includes a heating wire and pressure relief vent to reduce ice buildup and maintain proper air balance. Each door stands 77 inches high, facilitating easy loading and unloading.

The unit is hardwired to operate on 208/230 V, 60 Hz, single-phase power for consistent performance. Certifications include UL Listed US, NSF Listed, and DOE. The warranty covers 10-year panels and 1-year door parts. The unit comes complete with a condensing unit and evaporator for stable and efficient refrigeration.
