- ✓ **Precise Cooling**
LED digital control allows simple and accurate temperature adjustments.
- ✓ **Clear Visibility**
Bright LED interior lighting makes it simple to check stock at a glance.
- ✓ **Reliable Performance**
Bottom-mounted compressor offers consistent cooling.

PRODUCT OVERVIEW

The ChillCore Series CSBBC24 Back Bar Cooler is designed to provide efficient and reliable beverage storage for bars, restaurants, and service counters. With a compact 5.3 cu. ft. capacity, it holds up to 113 bottles or 180 cans, making it ideal for organized storage in tight spaces. The unit measures 24 in (W) × 24 in (D) × 34.5 in (H), offering convenient counter-height placement while fitting efficiently into tight areas.

Featuring a solid swing door, the unit keeps contents secure while maintaining a clean, professional exterior. Three adjustable wire shelves allow flexible organization to fit different bottle and can sizes.

The LED digital temperature control offers precise cooling, with a versatile temperature range of 33°F to 65°F to accommodate various beverages. Bright LED interior lighting makes it easy to check stock at a glance, while the automatic defrost function simplifies upkeep and reduces maintenance.

Equipped with a bottom-mounted compressor, this drink cooler fridge delivers consistent, reliable cooling, and its ETL Sanitation, DOE, and NSF certifications provide safety and efficiency. Built from stainless steel and backed by a 1-year warranty, the commercial back bar cooler combines durability, convenience, and performance for professional beverage service.
