## PRODUCT OVERVIEW

The ChefPro Series shelving kit is designed for commercial kitchen storage and organization in walk-in coolers, warehouses, and janitorial closets. This unit features an adjustable, stationary, vented wire shelving style, supporting storage in dry, moist, and kitchen environments. Assembly is required, and the unit is supplied without casters for fixed placement.

Constructed from epoxy-coated steel with a green finish, the shelving kit supports use across various commercial kitchen conditions. It includes four adjustable wire shelves, each with a capacity of 450 lbs, supporting organized storage for food handling and supplies. The total unit capacity is 1,800 lbs across all shelves.

The unit measures 60" (L) x 24" (W) x 74" (H), supporting vertical storage in commercial kitchen setups. It includes four 74 in stationary posts with a 1 in diameter, along with 16 pairs of split sleeves and foot components, supporting shelf positioning and structure.

This shelving kit is NSF Listed, supporting use in commercial kitchen environments. The epoxy finish supports use in walk-ins and moist environments. It includes a 1-year limited warranty by the manufacturer.
