SPECIAL FEATURES

- ✓ **High Storage Capacity**
Five shelves support up to 600 lbs per shelf, providing a total capacity of 3,000 lbs for commercial kitchen storage.
- ✓ **Multi-Environment Use**
Suitable for dry environments, moist environments, kitchens, and walk-in storage applications.
- ✓ **Stable Installation**
Adjustable feet support stationary placement and leveling on various floor surfaces.
- ✓ **Adjustable Shelving**
Adjustable shelf design supports flexible organization of ingredients, supplies, and equipment.
- ✓ **Wire Shelf Design**
Vented wire shelving promotes airflow around stored items in commercial food service settings.
- ✓ **Certified Storage**
NSF Certified for commercial food storage applications. It includes a 1-year limited warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series Shelf Kit is designed for commercial kitchens, walk-in coolers, storage rooms, and food service environments requiring organized storage solutions. It features epoxy-coated steel construction with a green finish and a wire shelving design. The unit includes five adjustable vented shelves and four posts for stationary installation. Its dimensions are 30" (L) x 24" (W) x 74" (H).

This shelf kit is designed for use in dry environments, moist environments, kitchens, walk-ins, and general storage areas. The adjustable shelving configuration supports flexible storage arrangements for commercial kitchen supplies, ingredients, and equipment. Assembly is required, and the unit includes adjustable feet for leveling on various floor surfaces.

Each shelf supports up to 600 lbs, providing a total shelving capacity of 3,000 lbs across the five-shelf configuration. The wire shelving design promotes airflow around stored items, making it suitable for commercial food storage and kitchen organization. The unit includes four posts with a 1" post diameter and a 74" post height.

The ChefPro Series shelf kit includes 20 pairs of split sleeves and foot components for assembly and shelf positioning. The epoxy finish is designed for use in a variety of storage environments. The unit is NSF Certified for commercial food service applications and includes a 1-year limited warranty by the manufacturer.
