Includes parts and labor warranty for reliable operation.

PRODUCT OVERVIEW

The gas hot plate from the KitchenCore Series is built for high-performance countertop cooking in commercial kitchens. Manufactured in China, this unit features four powerful burners, making it ideal for restaurants, cafés, and catering setups that require efficient multi-task cooking in a compact footprint. Its countertop design allows easy placement and flexibility in busy kitchen environments.

The gas hot plate from the KitchenCore Series is built for high-performance countertop cooking in commercial kitchens. Manufactured in China, this unit features four powerful burners, making it ideal for restaurants, cafés, and catering setups that require efficient multi-task cooking in a compact footprint. Its countertop design allows easy placement and flexibility in busy kitchen environments.

Constructed with a durable stainless steel body, the hot plate offers long-lasting performance and resistance to daily wear. The lift-off burner design allows easy access for cleaning and maintenance, while heavy-duty cast iron burners ensure consistent heat distribution. Adjustable stainless steel legs provide stability and proper height alignment on various work surfaces.

Designed for convenience, the hot plate includes a full-length removable drip tray that collects grease and spills for easy cleaning. Certified by NSF International and compliant with CSA and ETL standards, it meets commercial safety requirements. Backed by a 1-year parts and labor warranty, this hot plate is a dependable choice for professional kitchens.
