- ✓ **Flexible Installation**  
Flexible design supports easy routing and connection of gas appliances in commercial kitchens and restaurants.
- ✓ **Safe & Certified**  
CSA Certified for safe use in foodservice operations, supporting compliance with commercial kitchen standards.

## PRODUCT OVERVIEW

The ChefPro Series Commercial Gas Hose is a flexible gas hose designed for use in commercial kitchens, restaurants, and foodservice operations. It supports safe gas connections for equipment such as gas stoves, fryers, and griddles.

Constructed from polyvinyl chloride (PVC) and stainless steel, the hose offers durability and resistance to wear while supporting safe gas handling. It measures 48 in in length and 0.75 in in diameter and width, supporting standard commercial kitchen gas connections. The unit is lightweight at 3.53 lb, allowing easy installation and handling.

This gas hose is CSA Certified for safety in foodservice environments and includes features such as flexibility, anti-scratch design, and long-lasting performance. It includes a 1 year limited warranty by the manufacturer.
