1 Year Warranty

SPECIAL FEATURES

- Clear Product Visibility**
Two swing-style glass doors across 2 sections let staff and customers view refrigerated contents at a glance, reducing unnecessary door openings during service.
- Flexible Shelf Configuration**
Eight adjustable heavy-duty epoxy-coated shelves accommodate items of varying heights, allowing storage layouts to change as menu or inventory needs shift.
- Standard Outlet Compatible**
At 115V, 6 amps, and a NEMA 5-15P plug, the unit connects to a standard commercial outlet without requiring dedicated electrical work or a special circuit.
- Reduced Maintenance Demand**
Automatic defrost manages frost buildup without staff intervention, keeping the unit operating within its 33°F to 41°F electronic temperature range consistently.
- Sanitation Compliance Ready**
ETL Sanitation Listed certification confirms the unit meets recognized food-zone hygiene standards expected in inspected commercial kitchen and food retail settings.
- Included Coverage**
A 1-year warranty is provided with the unit, offering a defined period of coverage for a freestanding commercial refrigeration investment.

PRODUCT OVERVIEW

The Frigomax Series 2-door glass swing merchandiser refrigerator is designed for restaurants, convenience stores, delis, and other commercial kitchen or retail food operations that need reliable, high-visibility cold storage in a freestanding unit.

With a 36 cubic foot interior divided across 2 sections, the cabinet holds a substantial volume of chilled product and organizes it across 8 adjustable heavy-duty epoxy-coated shelves, making it straightforward for staff to rotate stock and maintain display order. The swing-style glass doors — hinged on both left and right — give customers and kitchen staff clear sightlines to refrigerated contents without opening the unit.

Temperature is maintained electronically within a range of 33°F to 41°F, supported by automatic defrost to reduce manual maintenance tasks. Interior LED lighting keeps displayed items clearly visible under refrigeration. The coated steel exterior measures 29 3/8" (D) x 51 1/8" (W) x 78 1/2" (H), fitting within typical commercial floor plans without a dedicated utility connection — the unit runs on 115V, 60 Hz, single-phase power at 6 amps and plugs into a standard NEMA 5-15P outlet.

The Frigomax Series merchandiser carries ETL Listed and ETL Sanitation Listed certifications, reflecting compliance with recognized electrical safety and food-zone sanitation standards relevant to commercial kitchen and food retail environments. A 1-year warranty is included with purchase.
