- Electrical System Setup**
 208/230 V, 1 phase, 60 Hz hardwired electrical connection system.
- Secure Door Access**
 1 solid door with keyed lock system for controlled entry in storage areas.
- Pressure Regulation Feature**
 Heating wire and pressure relief vent included for internal pressure control.
- Certified System & Warranty**
 UL Listed US, NSF Listed, DOE certifications with multi-layer warranty coverage.

PRODUCT OVERVIEW

PolarBox Series Walk-In Freezer designed for commercial kitchen, food storage, and cold room applications. Built with white galvanized steel panels and 24 gauge material type for structural rigidity. Includes CFC & HFC free construction with polyurethane insulation material, 4 in insulation thickness, and R-28 thermal resistance for temperature-controlled frozen storage environments.

This unit operates on 1 phase, 60 Hz electrical system with 208/230 V voltage and hardwired plug type connection. Designed for indoor and outdoor usage in commercial refrigeration setups. Uses top mounted refrigeration type configuration for integrated cooling system placement within the unit structure.

Equipped with 1 solid door featuring keyed lock system for controlled access in commercial storage environments. Door system uses modular cam-lock and tongue & groove hinge type construction for panel alignment. Includes self-closing mechanism, flush-mounted door design, heating wire system, and pressure relief vent for internal pressure balance.

Built in 12 ft nominal width and 18 ft nominal depth configuration with 7 ft nominal height structure. Physical dimensions include 138 in width, 217 in depth, and 91 in height. Certified under UL Listed US, NSF Listed, and DOE standards. Warranty includes 10-year panel, 2-year compressor & parts, 1-year door parts, and 1-year labor on refrigeration unit.
