WARRANTY
1 Year Warranty

SPECIAL FEATURES

- Large Display Capacity**
 The 43.0 cu ft interior accommodates a wide range of chilled items, reducing how often staff need to restock during a busy service period.
- Low-GWP Refrigerant**
 R-290 refrigerant is a low global warming potential option, helping commercial kitchen operators meet current environmental compliance expectations.
- Bright LED Illumination**
 Built-in LED lighting highlights displayed products clearly, improving visibility for customers browsing in a retail or foodservice setting.
- Consistent Cold Holding**
 A temperature range of 30.2 to 44.6 degrees Fahrenheit keeps perishable foods and beverages within safe refrigerated zones throughout the day.
- Energy and Safety Certified**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm the unit has been tested against recognized safety and energy efficiency standards.
- Covered by Warranty**
 Each unit is sold with a 1-year warranty, giving buyers a defined period of manufacturer support after purchase.

PRODUCT OVERVIEW

The Frigomax Series Horizontal Air Curtain Merchandiser is a freestanding open-front display unit designed for retail and commercial kitchen environments where high product visibility and easy customer access are priorities. At 101.6 inches wide, it suits high-traffic areas such as grab-and-go sections in restaurants, delis, convenience stores, and foodservice operations.

The unit holds 43.0 cubic feet of refrigerated space and maintains a temperature range of 30.2 to 44.6 degrees Fahrenheit, making it suitable for storing chilled beverages, prepared foods, and perishable items. Ventilated cooling circulates cold air consistently throughout the cabinet, while the horizontal air curtain design keeps the display open for quick, unobstructed access.

Running on 110 volts at 60 hertz, the merchandiser draws 32.5 amperes and operates at 1,890 watts. The R-290 refrigerant is a low global warming potential option aligned with current environmental standards. LED lighting illuminates displayed items clearly without adding excessive heat to the cabinet interior.

The round side panel shape and adjustable leg levelers allow the unit to be positioned and stabilized on standard commercial kitchen or retail flooring. Certifications include ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant, confirming the unit meets relevant safety and energy standards. Overall dimensions are 35.6 inches (L) x 101.6 inches (W) x 59.1 inches (H). A 1-year warranty is included with the purchase of each unit.
