SPECIAL FEATURES

- High Power Motor**
 A 3 HP motor supports commercial beverage blending applications in cafés and restaurant drink stations.
- Sound Enclosure Design**
 A twist lock sound enclosure reduces operational noise levels in commercial kitchen environments.
- Certified Equipment**
 The blender is NSF Certified, UL Listed, cULus Listed, and CE Certified for foodservice use.
- Programmable Settings**
 34 programs with variable speed control support structured beverage preparation workflows.
- Tritan Container**
 A 48 oz Tritan container with rubber-sealed lid supports beverage blending operations.
- Warranty Coverage**
 It includes a 1-year parts and labor warranty and a 3-year motor base parts warranty.

PRODUCT OVERVIEW

The ChefPro Series Drink Blender is designed for restaurants, cafés, juice bars, and commercial kitchen beverage preparation applications. Constructed from durable plastic with a black finish, this countertop blender features a manual control system and a sound enclosure design for controlled blending operations. The unit is suitable for high-demand beverage service environments.

The blender measures 8.5" (W) x 10.7" (D) x 18" (H). It includes a 48 oz total container capacity with a Tritan container and a plastic lid fitted with a rubber seal. The stainless steel blade assembly is designed for blending applications in commercial beverage preparation stations.

This drink blender operates on 120 V, 50–60 Hz, single-phase power and draws 15 amps. It is powered by a 3 HP motor with variable speed control. The unit includes 34 programmed settings for blending operations and uses a twist lock sound enclosure along with a larger centering pad for container stability during operation.

The ChefPro Series blender is NSF Certified, UL Listed, cULus Listed, and CE Certified. It is designed for countertop installation in commercial kitchen and beverage service areas. The unit includes a 1-year parts and labor warranty and a 3-year motor base parts warranty by the manufacturer.
