**WARRANTY**

1 Year Limited Warranty

### SPECIAL FEATURES

- ✓ **Grease Capacity**  
50 lb capacity supports grease collection in commercial kitchen drainage systems.
- ✓ **Steel Construction**  
Steel material construction is used for grease trap applications in plumbing systems.
- ✓ **Certified Equipment**  
PDI Certified design supports use in commercial kitchen drainage compliance requirements.
- ✓ **High Flow Rate**  
Rated flow rate of 25 GPM supports wastewater movement in foodservice operations.
- ✓ **Plumbing Integration**  
3" inlet and outlet with non-threaded connections support drain line installation.
- ✓ **Warranty Coverage**  
It includes a 1-year limited warranty by the manufacturer.

## PRODUCT OVERVIEW

The ChefPro Series Grease Trap is designed for commercial kitchen drainage systems in restaurants, cafeterias, and food preparation areas. Constructed from steel with a silver finish, the unit is built for integration into drain line and plumbing systems for grease separation during wastewater handling. The design includes a lid and dual pull handles for handling access.

The grease trap measures 27.13" (L) x 18.63" (W) x 17.25" (H). It is designed with a 50 lb capacity for grease collection and includes a lid for enclosed operation. The compact rectangular structure supports installation in commercial kitchen utility spaces.

This unit features 3" inlet and outlet sizes with 3" non-threaded connections. It is rated for a flow rate of 25 GPM and includes a flow control fitting. The installation type is compatible with drain line and plumbing system configurations used in commercial kitchen environments.

The grease trap is PDI Certified and includes a 1-year limited warranty by the manufacturer. It is intended for use in foodservice operations requiring grease separation within plumbing systems.
