SPECIAL FEATURES

- Spacious Storage**
 49 cu. ft. capacity across two solid-swing doors with eight adjustable wire shelves keeps inventory organized and accessible.
- Portable Design**
 Four swivel casters with brakes allow easy movement and positioning in any commercial space.
- Efficient Cooling**
 Bottom-mounted compressor with R-290 refrigerant delivers consistent temperatures from -8°F to 0°F while remaining energy-efficient and quiet.
- Low Maintenance**
 Automatic defrost reduces manual effort and keeps the unit operating efficiently.
- Professional Certifications**
 ETL Sanitation Listed, cETLus Listed, and DOE Certified for compliance and reliability in commercial environments.
- Durable Construction**
 Built from stainless steel with a silver finish for strength, hygiene, and long-lasting performance.
- Clear Visibility**
 Interior LED lighting make sure products are easy to see and reach.
- Secure Access**
 Keyed doors provide controlled entry, and self-closing hinges prevent accidental openings.
- Secure Storage**
 Key lock on doors provides controlled access to valuable items.
- User-Friendly Controls**
 Digital temperature controls simplify operation and monitoring for busy kitchens.

PRODUCT OVERVIEW

The ChillCore Series CCSRF54 Reach-In Freezer is a portable drink cooler designed for commercial kitchens, bars, restaurants, and hospitality venues requiring reliable and organized frozen storage. Built from durable stainless steel in a silver finish, it provides long-lasting performance and easy cleaning for daily heavy use. This freestanding unit measures 54.5 (W) x 31.5 (D) x 84 (H) inches, fitting efficiently into commercial spaces.

With a total capacity of 49 cb3 across two sections, the freezer features two solid swing doors with magnetic gaskets and a self-closing design to maintain consistent temperatures. Inside, eight adjustable wire shelves and LED lighting support clear organization and product visibility. Digital temperature controls allow precise settings from -8°F to 0°F, while the automatic defrost function minimizes maintenance.

This unit operates on 110 V / 60 Hz with a bottom-mounted 598 W compressor for dependable cooling. It includes a keyed lock for secure storage and four swivel casters with brakes for easy mobility.

Using R-290 hydrocarbon refrigerant, this large stainless steel freezer is energy-efficient and certified ETL Sanitation Listed, cETLus Listed, and DOE Certified, with a 1-year warranty for reliable operation.
