WARRANTY

1 Year Limited Warranty

SPECIAL FEATURES

- ✓ **High Heat Output**
The two-burner configuration delivers a total of 58,660 BTU/hr, supporting stock pot cooking in commercial kitchen operations.
- ✓ **Cast Iron Grates**
The cast iron grate material supports heavy stock pots commonly used in restaurant food preparation.
- ✓ **Certified for Use**
NSF and cETLus listings support installation in regulated foodservice environments.
- ✓ **Dual Burner Setup**
Each burner is rated at 29,330 BTU/hr, allowing chefs to operate two cooking positions simultaneously.
- ✓ **Stainless Steel Body**
The stainless steel construction aligns with commercial kitchen requirements for durability and routine cleaning.
- ✓ **Manufacturer Warranty**
It includes a 1-year warranty by the manufacturer as listed in the specifications.

PRODUCT OVERVIEW

The KitchenCore Series stock pot is a natural gas stock pot range designed for chefs and operators in commercial kitchens handling soups, sauces, and large-batch cooking. It features a compact footprint with two burners suited for countertop or low-profile installation.

The unit operates on natural gas and delivers a total output of 58,660 BTU/hr, with each burner rated at 29,330 BTU/hr. It uses a 3/4-inch gas connection, supporting standard commercial kitchen gas setups.

Constructed with a stainless steel body and cast iron grates, the stock pot range supports heavy cookware during continuous food preparation. Each burner includes an individual pilot for instant ignition, and a removable tray is included for handling spills during operation.

Overall dimensions are 12" (L) x 27.36" (W) x 12.28" (H), allowing placement in space-conscious cooking lines. The unit is NSF listed and cETLus listed and includes a 1-year warranty by the manufacturer.
