SPECIAL FEATURES

- Single Bowl**
One bowl with one compartment provides a dedicated washing area for restaurant and commercial kitchen food handling.
- Stable Support**
Four stainless steel legs with cross bracing and bullet feet provide a supported floor-standing structure.
- Certified Construction**
NSF Certified construction aligns with commercial kitchen equipment requirements.
- Durable Build**
Type 304 stainless steel with 16-gauge construction is suitable for daily commercial kitchen use.
- Practical Design**
Rounded corners, rolled edges, a 9-inch backsplash, and a 1 1/2" IPS drain connection are part of the sink construction.
- Manufacturer Warranty**
It includes a 90-day limited warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series 21" One Compartment Sink is designed for chefs, restaurants, and commercial kitchen food handling areas. It features one bowl with one compartment for washing and rinsing tasks. The sink is made from Type 304 stainless steel with a 16-gauge construction. Its overall dimensions are 21" (L) x 25.5" (W) x 43.75" (H).

It includes stainless steel legs with cross bracing and four legs for stable floor placement. Bullet feet provide floor contact, while rolled edges offer a smooth perimeter finish. Rounded corners are included as part of the sink design. The work surface height is 34.75 inches.

The sink includes a 9-inch backsplash and a 3.5-inch drain outlet size. It features a 1 1/2" IPS drain connection and an 8-inch faucet center configuration. The bowl measures 20 inches from front to back with a 12-inch bowl depth. These specifications are suitable for commercial kitchen washing stations.

The silver finish matches stainless steel commercial kitchen equipment. The sink weighs 86 pounds and is NSF certified. It includes a 90-day limited warranty by the manufacturer. The one-compartment layout is suitable for food preparation and cleaning areas in restaurants and other environments.
