SPECIAL FEATURES

- ✓ **High Ice Production**
Commercial-grade machine produces up to 350 pounds of full-size ice cubes daily, meeting high-volume requirements for foodservice operations.

✓ **Professional Construction**
Built with durable stainless steel construction and silver finish, ensuring long-lasting performance in commercial environments.

✓ **Easy Maintenance Access**
Elevated design with 6.3-inch legs provides convenient access for cleaning and ensures proper airflow.

✓ **Full-Size Cubes**
Produces standard full-size ice cubes, ideal for commercial beverage service and food display.
- ✓ **Massive Storage Capacity**
Integrated ice bin stores 300 pounds of ice, providing ample reserve for peak demand periods.

✓ **Lifetime Support**
Includes comprehensive warranty with free replacement parts and lifetime technical service support.

✓ **Commercial Grade Quality**
Engineered for professional foodservice environments, delivering reliable performance and consistent ice production.

✓ **Reliable Operation**
Designed for continuous 24-hour operation, ensuring consistent ice availability for business needs.

PRODUCT OVERVIEW

The CCAIM350 Ice Machine with Bin is a commercial-grade ice-making unit built from stainless steel and finished in silver. It produces up to 350 lb of full-size ice cubes every 24 hours, making it suitable for foodservice operations requiring reliable, high-volume output.

An integrated ice bin provides 300 lb of storage capacity, with bin dimensions measuring 22 in W x 28 in D x 42.8 in H. The full unit has a compact footprint of 22 in W x 28 in D x 65 in H and includes 6.3 in legs to elevate the system for cleaning access and airflow.
