Carbon steel chrome plated surface supports use in commercial kitchen environments.
- ✓ **Warranty Coverage**
Includes a 90-day warranty by the manufacturer for commercial kitchen use.

PRODUCT OVERVIEW

The ChefPro Series chrome wire shelving kit is designed for restaurants, storage rooms, and commercial kitchen environments requiring organized multi-level storage. It is constructed from steel with a carbon steel chrome plated finish, supporting durability and surface protection in storage areas. The silver finish aligns with standard commercial kitchen shelving systems.

This unit measures 60" (L) x 24" (W) x 72" (H), providing vertical storage space for organizing kitchen supplies, containers, and inventory. It features a 4-shelf configuration, supporting separation and arrangement of items in commercial kitchen workflows. The post height of 72 inches supports full vertical utilization of storage space.

The shelving kit has a total weight capacity of 2400 lb, supporting storage of bulk items in restaurant and food handling environments. It includes 360-degree swivel casters, supporting movement and repositioning within storage or prep areas.

This unit weighs 37 lb, supporting handling and setup in commercial kitchen environments. It is categorized as a chrome wire shelving kit and is suitable for organized storage in various kitchen and storage applications. It includes a 90-day warranty by the manufacturer.
