WARRANTY

1 Year Limited Warranty

SPECIAL FEATURES

- Multi-keg capacity**
 Supports three full size kegs, allowing chefs and bar staff to manage multiple draft options in a commercial kitchen or restaurant environment.
- Digital temperature control**
 Features a digital temperature control system, supporting monitored temperature settings for draft beer storage in foodservice operations.
- Manufacturer warranty**
 Includes a 1-year warranty by the manufacturer, reflecting standard equipment coverage for restaurant use.
- Eight-tap service**
 Includes two beer towers with eight faucets, supporting high-volume draft beer service at bars and hospitality venues.
- Automatic defrost system**
 Uses automatic defrost type, reducing routine maintenance tasks in busy commercial kitchens.

PRODUCT OVERVIEW

The IceVault Series beer kegerator is a freestanding draft beer unit designed for restaurant bars, cafés, and commercial kitchen beverage stations. It supports up to three full size kegs, providing capacity suitable for multi-tap service in HORECA environments.

The black exterior with a solid, swing-style door presents a clean appearance appropriate for front-of-house or back-bar placement in a commercial kitchen setting. It features two keyed locks, adding controlled access aligned with food and beverage handling requirements in restaurants.

This beer kegerator includes eight taps arranged across two beer towers, with both towers and all eight faucets included, allowing simultaneous draft service from multiple lines. Digital temperature control supports consistent operation for draft beer storage and dispensing.

The unit measures 24.5" (L) x 60.8" (W) x 36.2" (H), offering a low-profile footprint suitable for undercounter or back-bar placement. It operates on 120 V, 60 Hz power with a current rating of 6.4 A, aligning with standard electrical setups in restaurants and bars. This IceVault Series beer kegerator includes a 1-year warranty by the manufacturer, reflecting standard coverage for commercial equipment.
