- ✓ **Secure Access**
Keyed lock provides secure access to stored products.
- ✓ **Installation Ready**
NEMA 5-15P plug with 6 ft power cord allows fast installation in commercial spaces.

PRODUCT OVERVIEW

The CEBBC53 Back Bar Cooler from the CoolEdge Series is designed for bars, restaurants, and catering establishments that need compact refrigerated storage with clear product visibility. Its black vinyl-coated steel construction provides durability while blending with modern hospitality environments.

This cooler features three glass swing doors with bright LED lighting and six adjustable PVC-coated shelves, offering flexible storage for beverages of different sizes. A keyed lock ensures secure access.

A 3/7 HP bottom-mounted compressor using R290 refrigerant maintains the temperature range of 33°F to 41°F, controlled via a digital system with LED display. The auto defrost feature reduces frost buildup and simplifies maintenance.

The unit measures 53" (W) × 20" (D) × 35" (H), providing 9 cu. ft. of storage capacity in a compact footprint. It operates on 115 V, 60 Hz, with a NEMA 5-15P plug and 6 ft power cord for convenient setup. Certified ETL Listed and ETL Sanitation Listed, this back bar cooler comes with a 6-month parts, labor, and compressor warranty, delivering reliable and compliant refrigeration for commercial use.
