1 Year Warranty

SPECIAL FEATURES

- High-Capacity Storage**
 The 55.0 cu ft interior across three sections holds a large volume of frozen items, reducing how often staff need to restock during a busy service shift.
- No Manual Defrost**
 The frost-free defrost system runs automatically, eliminating the need for scheduled manual defrost cycles and keeping staff focused on kitchen tasks.
- Flexible Shelf Configuration**
 Adjustable shelving in each of the three sections lets restaurant operators reconfigure storage to fit varying frozen product sizes without additional hardware.
- Consistent Freeze Temps**
 A operating range of -0.4°F to -8°F keeps frozen goods at stable holding temperatures throughout continuous daily use in a commercial kitchen.
- ETL and DOE Certified**
 ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications confirm the unit meets recognized safety, sanitation, and energy efficiency standards for commercial foodservice use.
- Standard Circuit Compatible**
 Operating at 110V/60Hz and 14 amperes, this freezer connects to standard commercial electrical circuits without requiring a dedicated high-voltage installation.

PRODUCT OVERVIEW

The Frigomax Series 3-door glass door merchandising freezer is a vertical display freezer designed for restaurants, convenience stores, and commercial kitchens that need high-capacity frozen product visibility without sacrificing floor space efficiency.

With a 55.0 cubic foot interior across three sections, the unit maintains a temperature range of -0.4°F to -8°F, keeping frozen goods at consistent holding temperatures throughout the day. The frost-free refrigeration system eliminates manual defrost cycles, reducing labor demands during service hours. R290 refrigerant is used in this model, a low-global-warming-potential option increasingly required by energy compliance standards.

The three swing-style glass doors feature self-closing hinges positioned for both left and right configurations, supporting flexible placement within a commercial kitchen or retail floor layout. Adjustable shelving inside each of the three sections allows operators to accommodate different package sizes and reorganize storage without tools. LED lighting illuminates merchandise clearly for customer-facing display environments.

The bottom-mounted compressor allows full use of vertical interior space. Running at 110V/60Hz and drawing 14 amperes at 1,400 watts, this unit fits standard commercial electrical circuits. The freezer is ETL Listed, ETL Sanitation Listed, and DOE Compliant, meeting safety, sanitation, and energy benchmarks for commercial foodservice settings. Dimensions are 28.7" (L) x 74.4" (W) x 79.1" (H). It carries a 1-year warranty.
