WARRANTY

1 Year Limited Warranty

SPECIAL FEATURES

- **Stainless Steel Body**
  Stainless steel material supports routine cleaning and daily use in commercial kitchen refrigeration areas.
- **Silver Finish**
  Silver color aligns with stainless steel equipment for a consistent look across restaurant storage units.
- **Door Hinge Type**
  Classified as a door hinge for mounting or replacing door hardware on compatible units.
- **Up-Right Orientation**
  Up-right hinge type matches doors that open toward the upper right on reach-in refrigerators and freezers.
- **Refrigeration Use**
  Specified for reach-in refrigerators and freezers in foodservice and commercial kitchen applications.
- **Limited Warranty**
  Includes a 1-year limited warranty by the manufacturer for documented service coverage.

PRODUCT OVERVIEW

The Medal Equipment door hinge is designed for reach-in refrigerators and freezers used in commercial kitchen environments such as restaurants, catering units, and foodservice storage areas. It functions as a door hinge type component for mounting and replacing door hardware on compatible equipment. The structure supports consistent door movement during daily food handling tasks.

This hinge is constructed from stainless steel, forming a rigid and durable body suited to repeated opening, closing, and routine cleaning schedules. The metal material aligns with common commercial kitchen standards and foodservice equipment finishes. The silver color blends with stainless steel exteriors, maintaining a uniform and professional appearance across refrigeration units.

The hinge features an up-right hinge type, indicating the door opens toward the upper right side when installed. This orientation supports correct placement on reach-in refrigerators and freezers designed for this swing direction. The defined hinge type assists technicians and maintenance teams during installation and replacement within busy commercial kitchen workflows.

Manufactured by Medal Equipment, this component serves as a dedicated replacement part for compatible refrigeration equipment. It fits applications where stable door alignment is required for daily operation. It includes a 1-year limited warranty by the manufacturer, providing stated coverage for the specified service period.
