WARRANTY

1 Year Warranty

SPECIAL FEATURES

- Large Display Capacity**
 The 24.9 cu ft interior holds a substantial quantity of pastries, cakes, and refrigerated items, reducing how often staff need to restock during a busy shift.
- Low-GWP Refrigerant**
 R-290 refrigerant is a hydrocarbon option with a low global warming potential, supporting compliance with current environmental standards in commercial kitchens and food retail operations.
- Independent Safety Certification**
 ETL Listed and ETL Sanitation Listed certifications confirm the unit has been independently tested for electrical safety and sanitation standards for restaurant and bakery food display environments.
- Safe Cold-Holding Range**
 A 32 to 41 degree Fahrenheit temperature range keeps perishable baked goods and prepared foods within food safety guidelines throughout the service period.
- Energy-Efficient Operation**
 Running at 540 watts and 6.5 amperes on a standard 110V circuit, the case integrates into most commercial setups without requiring dedicated high-draw electrical infrastructure.
- Covered by Manufacturer Warranty**
 Each unit is backed by a 1-year warranty, giving commercial kitchen and bakery operators a defined period of manufacturer support after purchase.

PRODUCT OVERVIEW

The Frigomax Series 77" curved glass bakery display case is a freestanding serve-over counter unit designed for bakeries, cafes, patisseries, and food retail operations that need an attractive, refrigerated display for pastries, cakes, sandwiches, and other perishable goods.

With a 24.9 cubic foot interior and a temperature range of 32 to 41 degrees Fahrenheit, the cabinet maintains safe cold-holding conditions for a wide variety of refrigerated baked goods and grab-and-go items throughout a busy service day. The curved glass front provides a clear, unobstructed view of displayed items from the customer side, supporting self-service and serve-over counter formats.

The unit operates on 110V at 60 Hz, drawing 6.5 amperes and consuming 540 watts, making it compatible with standard commercial kitchen electrical circuits without special wiring. It runs on R-290 refrigerant, a low-GWP hydrocarbon choice aligned with current environmental guidelines and DOE 2017 energy efficiency compliance requirements.

At 77 inches wide, 37 inches deep, and 47.2 inches tall, the case fits into a range of front-of-house and countertop display configurations. It carries ETL Listed and ETL Sanitation Listed certifications, confirming it has been independently evaluated for electrical safety and food-contact hygiene standards relevant to commercial food service environments. A 1-year warranty is included with each unit.
