1 Year Warranty

SPECIAL FEATURES

- ✓ **Consistent Chill Zone**
A temperature range of 36°F to 46°F keeps refrigerated pastries and baked goods at safe display temperatures throughout a full service day.

✓ **Easy Front Cleaning Access**
The front glass panel swings upward, giving kitchen staff direct reach into the display area for cleaning without disassembling the unit.

✓ **Standard Electrical Fit**
At 110V, 60Hz, and 680 watts, the case connects to a standard commercial kitchen outlet without requiring dedicated high-voltage circuit work.
- ✓ **Generous Display Capacity**
The 28.1 cu ft interior accommodates a wide variety of tiered trays and platters, reducing how often staff need to restock during peak hours in a busy bakery or café.

✓ **Certified for Commercial Use**
ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications confirm the unit meets safety, sanitation, and energy standards required in commercial kitchen environments.

✓ **Covered After Purchase**
This unit is supported by a 1-Year Warranty, giving restaurant and bakery operators a defined period of coverage after installation.

PRODUCT OVERVIEW

The Frigomax Series 59" Refrigerated Bakery Display Case is a freestanding straight-glass display unit built for commercial kitchens in bakeries, cafés, delis, and restaurants that need to merchandise chilled pastries, cakes, and perishable baked goods at consistent temperatures.

The cabinet holds 28.1 cubic feet of display space and maintains a temperature range of 36°F to 46°F, suitable for keeping refrigerated baked items at safe serving temperatures throughout the day. Double tempered glass on both the door and display panels keeps the interior visible while supporting thermal retention. The stainless steel interior is straightforward to wipe down between service periods.

The front glass swings up to provide easy cleaning access to the interior surfaces, and included leg levelers allow stable placement on uneven floor surfaces common in commercial kitchen environments. Automatic defrost reduces the manual maintenance cycle for kitchen staff. LED lighting illuminates displayed items without generating significant additional heat inside the cabinet.

Running at 110V, 60Hz, and drawing 5.2 amperes at 680 watts, the unit fits standard commercial kitchen electrical setups without requiring special circuit modifications. The R-290 refrigerant is an environmentally conscious choice aligned with current food service industry standards. The unit carries ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications. It measures 26.8" (L) x 59.1" (W) x 55.1" (H) and comes backed by a 1-Year Warranty.
