Compressor: 1 Year

SPECIAL FEATURES

- ✓ Durable Construction**
 Stainless steel interior with a black exterior and aluminum back creates a strong structure for daily use in a commercial merchandiser refrigerator.
- ✓ Easy Viewing**
 Glass door merchandiser refrigerator design allows items to be seen clearly for customers.
- ✓ Wide Temperature Range**
 Operates from -33°F to 40°F, suitable for refrigeration and frozen display in retail spaces.
- ✓ Bright Interior Lighting**
 LED lighting improves visibility across both sections.
- ✓ Warranty Coverage**
 1 year parts & labor, 1 year compressor warranty provides reliable protection for this commercial merchandiser refrigerator.
- ✓ Large Display Capacity**
 Two sections with 45 cu ft capacity provide space for larger product quantities, ideal for a merchandiser fridge in busy retail areas.
- ✓ Flexible Storage Layout**
 Ten adjustable PVC-coated shelves allow versatile arrangement to accommodate different product sizes.
- ✓ Accessible System Design**
 Bottom-mounted compressor keeps components within reach for routine maintenance.
- ✓ Listed Compliance**
 ETL Sanitation Listed and cETLus certifications confirm compliance with commercial standards.

PRODUCT OVERVIEW

The IceVault Series IVMR5345C Commercial Merchandiser Refrigerator with 45 cu ft capacity is designed for stores needing a two-section unit with 2 doors, offering a broad layout for retail display. Its stainless steel interior paired with a black finish and aluminum back exterior creates a sturdy cabinet suited for daily use. The unit measures 79 in (H) x 53 in (W) x 32 in (D), making placement planning simple.

The glass swing doors with left and right hinges provide clear visibility and familiar access across both sections. The self-closing feature helps reduce open-door time, while the keyed lock restricts entry when needed. Inside, ten adjustable PVC-coated shelves allow flexible organization, and LED lighting brightens the cabinet for improved visibility.

This commercial merchandiser refrigerator operates on 115 V, 6 A, 60 Hz, and 1 Phase power, compatible with standard commercial outlets via a NEMA 5-15P plug. Auto-defrost manages frost buildup, electronic controls adjust temperature, and the bottom-mounted compressor keeps the system accessible. The unit uses R-290 refrigerant with a 1/2 HP system.

ETL Sanitation Listed and cETLus certified, the unit comes with a 1 year parts & labor, 1 year compressor warranty for reliable coverage.
