- ✓ **Structural Stability**
It functions as a vertical support component for wire shelving installations.
- ✓ **Leveling Foot Base**
It includes a leveling foot for stable placement on uneven floors.
- ✓ **NSF Listed Standard**
It is NSF Listed for commercial kitchen sanitation compliance.

PRODUCT OVERVIEW

The ProKitchen Series Wire Shelf Post is a commercial kitchen shelving support component designed for restaurants, hotels, and food service storage systems. It is made with steel material in a green finish with epoxy coating, supporting structured installation in commercial kitchen shelving setups.

The post measures 74 in (H) and is used as a vertical support for wire shelving configurations in commercial kitchen storage areas. It supports adjustable shelving layouts for organized storage in food service environments.

It is suitable for moist and humid environments, including walk-in coolers, warewashing areas, and other controlled storage spaces used in commercial kitchen operations.

The unit includes a leveling foot for stable installation on uneven flooring surfaces. It is NSF Listed, supplied as 1/Each, and includes a 1-year warranty for commercial kitchen shelving applications.
