WARRANTY

10-Year Panel, 1-Year Door Parts, 2-Year Compressor & Parts, 1-Year Labor on Refrigeration Unit

SPECIAL FEATURES

- Steel Construction**
 White galvanized steel with 24 gauge thickness supports commercial kitchen and cold storage usage.
- Maximum Depth**
 17 ft nominal depth supports high-capacity frozen storage for commercial operations.
- Top Mounted Cooling**
 Top mounted refrigeration system supports equipment placement above storage chamber space.
- Solid Door Design**
 Single solid flush-mounted door supports structured access in commercial food storage.
- Self Closing Feature**
 Self-closing door mechanism supports controlled access in freezer environments.
- Modular System**
 Cam-lock tongue & groove panel design supports structured walk-in freezer installation.
- Thermal Insulation**
 4 in polyurethane insulation with R-28 thermal resistance supports low-temperature environments.
- Refrigerant Control**
 R-448A refrigerant with TXV/TEV valve and solenoid system supports controlled cooling flow.
- Door Security**
 Keyed lock system supports restricted entry in restaurant and catering storage areas.
- Warranty Coverage**
 Includes 10-year panel, 1-year door parts, 2-year compressor & parts, and 1-year labor on refrigeration unit.

PRODUCT OVERVIEW

The PolarBox Series Walk-In Freezer is a commercial cold storage unit designed for restaurants, hotels, catering kitchens, and food handling facilities requiring large-scale frozen storage. It is constructed with white galvanized steel and 24 gauge panels suitable for structured use in commercial kitchen environments.

The unit uses a modular cam-lock, tongue & groove design that supports panel-based assembly. It features 4 in polyurethane insulation with R-28 thermal resistance to support controlled freezing conditions. The enclosure measures 98" (W) x 197" (D) x 91" (H), with nominal dimensions of 8 ft width, 17 ft depth, and 7 ft height.

This walk-in freezer operates on a 1 phase, 208/230 V, 60 Hz electrical supply and uses a top mounted refrigeration system. It includes R-448A refrigerant with thermostatic expansion valve (TXV/TEV) and liquid line solenoid valve for regulated refrigeration flow in commercial applications.

The unit is fitted with a single solid flush-mounted door with self-closing function, keyed lock, 77 in door height, heating wire, and pressure relief vent. It includes a standard galvanized steel floor and CFC & HFC free insulation material suitable for indoor and outdoor installation.
