It features an open wire design supporting airflow around stored items.
- ✓ **Adjustable Installation**  
It includes adjustable height setup using (4) shelf split sleeves.
- ✓ **NSF Listed Standard**  
It is NSF Listed for commercial kitchen sanitation compliance.

## PRODUCT OVERVIEW

The ProKitchen Series Wire Shelf is a commercial kitchen storage unit designed for restaurants, hotels, and food service operations requiring organized shelving in storage, warewashing, and cold storage areas. It is constructed with zinc-plated wire material in a green finish with epoxy coating, supporting structured storage use in commercial kitchen environments.

The shelf features an open wire shelf design that supports airflow around stored items. It measures 36 in (L) x 24 in (D) and is designed for adjustable height installation in commercial kitchen shelving systems.

It is suitable for moist and humid environments, walk-in coolers, warewashing areas, and dry storage applications. The open wire structure supports ventilation across stored goods in commercial kitchen operations.

The unit supports a weight capacity of 600 lb per shelf and is supplied with (4) shelf split sleeves. It is NSF Listed, supplied as 1/Each, and includes a 1-year warranty for commercial kitchen storage applications.
