WARRANTY

2 Years Warranty

SPECIAL FEATURES

- ✔ **Extended Hose Length**
The unit includes a 48 in hose length suitable for flexible gas line routing in commercial kitchen setups.
- ✔ **Rotational Connection End**
It features a 360° rotational end for adjustable alignment during installation.
- ✔ **Complete Connection Kit**
It includes hose, quick disconnect, two elbows, restraining cable, and full port valve.
- ✔ **Dual Gas Compatibility**
It supports both natural gas and LP compatible systems for installation flexibility.
- ✔ **Braided Steel Construction**
It is made with 304 stainless steel braided hose with PVC coating for structural support.
- ✔ **Certified Compliance**
It is cCSAus Sanitation Approved for US and Canada and NSF Approved for commercial kitchen use.

PRODUCT OVERVIEW

The ProKitchen Series Gas Hose Connector Kit is a commercial kitchen gas connection accessory designed for gas supply integration in restaurants, hotels, and food service environments. It is constructed with stainless steel braided hose and PVC coating in a yellow finish, supporting structured gas line connectivity in commercial kitchen installations. It is compatible with both natural gas and LP gas systems.

The hose is designed with a 48 in length and 0.75 in diameter, made using 304 stainless steel braided construction for mechanical strength in gas handling applications. It includes a 360° rotational end that supports flexible alignment during installation in commercial kitchen setups.

The kit includes hose, quick disconnect, two elbows, restraining cable, and full port valve, providing all required components for gas connection assembly. It is certified cCSAus Sanitation Approved for US and Canada and NSF Approved for compliance in commercial kitchen environments.

The unit is supplied as 1/Each and includes a 2-year warranty. It is designed for 3/4" gas inlet size group connections and supports natural gas and LP compatible systems used in commercial kitchen equipment installations.
