WARRANTY
Parts & Labor: 2 Years
Compressor: 6 Years

SPECIAL FEATURES

- High Ice Output**
 The machine supports up to 1000 lb of ice production in 24 hours with a maximum rate of 41.7 lb per hour for busy beverage service areas.
- Air-Cooled System**
 The air-cooled condenser with ventilated cooling supports operation in environments with an ambient temperature of 70°F.
- Certified Compliance**
 ETL sanitation, cETLus, NSF, and Energy Star listings align with sanitation and energy standards in commercial kitchens.
- Large Bin Storage**
 A 440 lb built-in bin supports continuous access to full cube ice in commercial kitchen and bar operations.
- Adjustable Ice Control**
 Full cube ice thickness adjusts between 19 to 25 mm through the digital control panel for varied beverage needs.
- Extended Warranty Coverage**
 It includes a 2-year warranty on parts and labor and a 6-year warranty on the compressor by the manufacturer.

PRODUCT OVERVIEW

The Platinum Frost Series commercial air cooled ice machine with bin is designed for cafés, hotels, bars, milk-tea outlets, and cold drink stations requiring consistent full cube ice production in a commercial kitchen environment. It supports high-volume beverage service with integrated ice storage.

Constructed with a stainless steel exterior using Type 304 stainless steel and key internal components made from Type 316 stainless steel, the unit combines stainless steel, ABS, and PE materials for durability. The silver and black finish suits front- and back-of-house placement.

The ice machine delivers up to 1000 lb of ice in 24 hours, with a maximum production rate of 41.7 lb per hour and a 440 lb bin storage capacity. It measures 29.9" (L) x 33.9" (W) x 75.6" (H) and produces full cube ice with adjustable thickness from 19 to 25 mm.

It operates on 220 V, 60 Hz power with a 2150 W load and uses R290 refrigerant with an air-cooled condenser and ventilated cooling system. Features include a digital control panel, one-button operation, automatic cleaning, adjustable stable struts, dual side air filters, and included accessories, along with ETL, NSF, Energy Star certifications and a 2-year parts and labor warranty with 6 years on the compressor.

SPECIFICATION

ATTRIBUTE	VALUE	ATTRIBUTE	VALUE
24 Hour Ice Production	1000 pound	Color	Silver & Black
Features	Intelligent Voiced FailureFunction System, Air Filter, Durable Construction, Crystal Clear & Adjustable Height Ice (19 to 25 mm)	Material	Stainless Steel
Refrigerant Type	R-290	Type	Ice Machine With Bin
Voltage	220 volt	Hertz	60 hertz
Ice Type	Full Size Cubes	Ambient Temperature Range	70°F
Condenser Type	Air-Cooled	Selling Unit	1/Each
Series	Platinum Frost Series	Product Width	33.9 inch
Product Height	75.6 inch	Product length	29.9 inch
Country of Origin	China	Legs	Adjustable Stable Struts
Control Type	Digital Control Panel	Wattage	2150 watt

SPECIFICATION

ATTRIBUTE	VALUE	ATTRIBUTE	VALUE
Included	Water Filter, Ice Scoop, Inlet Hose With Filter, Adjustable Feet, Water Dividing Pipe	Cleaning Type	Automatic Cleaning
Bin Storage Capacity	440 pound	Production Time	Ice Making Time: 15 - 17 Minutes
Stainless Steel Type	304 Stainless Steel For Exterior Material, 316 Stainless Steel For Key Components Material	Cooling Type	Ventilated
Water Temperature Range	50°F	Applications	Perfect For Coffee Shops, Hotels, Bars, Milk-Tea Bars, Cold Drinks Bars & Other Places
Temperature Control	Adjustable Ice Thickness Settings	Operation Type	One-Button Operation
Compressor Type	High Efficiency Compressor	Insulation Type	6-Sided Cyclopentane Foam Insulation
Frame Material	Riveted, Weld-Free Sheet Metal Construction	Design	Dual Side Air Filter Design
Configuration	Split Condenser	Bin Type	With Bin
