SPECIAL FEATURES

- Capacity**
 The 46 cubic foot interior spread across two sections accommodates substantial frozen inventory for high-volume restaurant and food service operations.
- Electronic Temperature Control**
 An electronic controller maintains the cabinet between 0°F and -8°F, providing consistent frozen storage conditions for a variety of food items.
- ETL Certified Unit**
 ETL Listed and ETL Sanitation Listed certifications confirm the freezer meets established commercial kitchen safety and sanitation requirements for food service use.
- Self-Closing Doors**
 Solid swing doors feature a self-closing mechanism with a 90-degree stay-open position, supporting efficient loading during active kitchen service.
- Adjustable Epoxy Shelves**
 Six adjustable, epoxy-coated shelves across both sections allow chefs and kitchen staff to configure interior space to fit different container sizes and storage needs.
- 1-Year Warranty Coverage**
 The Frigomax Series Reach-In Freezer is backed by a 1-year warranty, providing documented coverage for commercial kitchen operators after purchase.

PRODUCT OVERVIEW

The Frigomax Series 54-inch Reach-In Freezer is a two-section, two-door freestanding unit designed for demanding commercial kitchen environments such as restaurants, catering operations, and food service facilities requiring reliable below-zero frozen storage.

Measuring 32 1/16" (L) x 54 1/8" (W) x 83 1/4" (H), this unit holds 46 cubic feet of frozen storage capacity across two sections, each fitted with solid swing doors with left and right hinge locations. The doors are self-closing and include a 90-degree stay-open feature, allowing hands-free loading during busy service. Six adjustable, epoxy-coated shelves are distributed across both sections, offering flexible interior organization for a range of frozen food items.

The electronic temperature control maintains a range of 0°F to -8°F, keeping stored ingredients within safe frozen thresholds. The bottom-mounted 1/2 HP compressor draws 5 amperes at 115V/60Hz on a single-phase circuit and plugs into a standard NEMA 5-15P outlet. An EC fan motor supports efficient air circulation throughout the cabinet. The unit is finished in stainless steel with a silver exterior and ships with locks and keys for each keyed door lock.

Four casters with brakes allow the unit to be repositioned on the kitchen floor as needed while remaining stable during operation. The Frigomax Series Reach-In Freezer carries ETL Listed and ETL Sanitation Listed certifications, confirming it meets recognized commercial food service safety and sanitation standards. A 1-year warranty is included with purchase.
