SPECIAL FEATURES

- 2-Drawer Access**
Two drawer-access compartments with heavy-duty pull handles allow kitchen staff to retrieve refrigerated ingredients quickly without interrupting cooking workflow.
- Marine Edge Top**
The marine edge top style contains spills and provides a stable surface for positioning cooking equipment directly above the refrigerated base.
- Mobile with Brake**
Four heavy-duty casters with brakes allow the chef base to be repositioned for cleaning or kitchen reconfiguration, then locked securely in place during service.
- Flexible Pan Capacity**
The unit accommodates 1 full-size food pan and up to 3 pans in a 1/6 size configuration, supporting organized cold ingredient storage directly at the cooking station.
- ETL Certified**
ETL Listed and ETL Sanitation Listed certifications confirm the unit meets established safety and sanitation requirements for commercial food service operations.
- 1-Year Warranty Coverage**
The Frigomax Series Chef Base Refrigerator is backed by a 1-year warranty, providing defined coverage for commercial kitchen operators after purchase.

PRODUCT OVERVIEW

The Frigomax Series Chef Base Refrigerator is a 2-drawer, under-equipment refrigeration unit designed for commercial kitchens and restaurant lines where cold storage directly beneath cooking equipment is essential. The freestanding unit holds 6.89 cubic feet of refrigerated space, maintaining a temperature range of 33°F to 41°F to keep ingredients at safe holding temperatures during active service.

Built with a stainless steel interior and exterior, this chef base measures 32 15/16"L x 36 1/4"W x 26 15/16"H. Its marine edge top contains spills and supports countertop equipment. Two drawers with heavy-duty pull handles offer easy access for high-traffic kitchens. Pan capacity: 1 full-size food pan or up to 3 pans in 1/6 size, giving flexible cold storage right at the cooking station.

The electronic control type allows for straightforward temperature management, while the 1/5 horsepower compressor runs on 115V/60Hz single-phase power, drawing 2.6 amperes and connecting via a standard NEMA 5-15P plug — compatible with most commercial kitchen electrical outlets without additional wiring. Four heavy-duty casters with brakes support repositioning and locking of the unit on the kitchen floor, keeping it stable during service while remaining movable for cleaning or reconfiguration.

ETL Listed and ETL Sanitation Listed certifications confirm the unit meets recognized safety and sanitation standards for commercial food service environments. The Frigomax Series Chef Base Refrigerator comes with a 1-year warranty, providing defined coverage for restaurants, catering operations, and food service kitchens investing in under-equipment cold storage.
