1 Year Warranty

SPECIAL FEATURES

- Curved Glass Visibility**
 The curved glass front gives customers and staff a clear, wide-angle view of displayed bakery items from multiple positions along the service counter.
- Refrigerated Temperature Hold**
 A temperature range of 32 to 41 degrees Fahrenheit keeps perishable baked goods, dairy-based desserts, and cream-filled pastries at a safe serving temperature throughout service hours.
- Low-GWP Refrigerant**
 The R-290 refrigerant has a significantly lower global warming potential than conventional refrigerants, making it a more environmentally responsible choice for commercial kitchen operations.
- Space-Conscious Footprint**
 At 47.2 inches wide and 33.5 inches deep, this freestanding unit fits into most front-of-house service areas and bakery counter layouts without requiring structural modifications.
- Certified for Commercial Use**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm the unit meets recognized electrical safety, sanitation, and energy requirements for restaurant and bakery settings.
- Included Warranty Coverage**
 This display case comes with a 1-year warranty, giving buyers a defined period of coverage from the date of purchase.

PRODUCT OVERVIEW

The Frigomax Series 47" curved glass bakery display case is a serve-over counter refrigerated unit designed for bakeries, cafes, delis, and restaurants that need to present refrigerated and dry baked goods in an attractive, accessible format.

The curved glass front panel offers a clear, unobstructed view of displayed items from multiple angles, while the stainless steel construction provides a durable, food-safe surface appropriate for commercial kitchen environments. At 47.2 inches wide, 33.5 inches deep, and 48.4 inches tall, the unit fits comfortably in front-of-house service areas without requiring a large footprint.

The refrigerated interior maintains a temperature range of 32 to 41 degrees Fahrenheit, making it suitable for cream-filled pastries, dairy-based desserts, and other perishable bakery items. The 13.9 cubic foot capacity provides meaningful shelf space between restocks during peak service hours. The unit draws 7.10 amperes at 110 volts and operates at 340 watts, keeping energy consumption moderate for a refrigerated display of this size.

The R-290 refrigerant is a low global warming potential option recognized for its lower environmental impact compared to older refrigerant types. The freestanding installation type allows flexible placement in bakery counters or retail service lines. This unit carries ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications, confirming it meets established electrical safety, sanitation, and energy efficiency standards. A 1-year warranty is included with the unit.
