1 Year Warranty

SPECIAL FEATURES

- ETL Certified**
 This undercounter refrigerator carries both ETL Listed and ETL Sanitation Listed certifications, meeting recognized standards for electrical safety and sanitation in commercial kitchens.
- EC Fan Motor**
 The EC fan motor stops automatically when a door is opened, helping maintain consistent internal temperatures of 33°F–41°F during routine food access at the prep line.
- Mobile with Brakes**
 Heavy-duty casters with brakes allow the refrigerator to be repositioned within the commercial kitchen and locked securely in place during service.
- Capacity**
 With 13.1 cubic feet of interior storage, this unit offers practical cold storage volume for a 48-inch undercounter refrigerator used in restaurant and food service operations.
- Adjustable Epoxy Shelves**
 Two adjustable epoxy-coated shelves allow kitchen staff to reconfigure interior storage to fit containers and food pans of different heights.
- 1-Year Warranty**
 This unit is backed by a 1-year warranty, providing a defined coverage period for commercial kitchen operators after purchase.

PRODUCT OVERVIEW

The Frigomax Series 48-inch Undercounter Refrigerator is a 2-door solid unit designed for commercial kitchen environments where space efficiency and consistent cold storage are daily priorities. Ideal for restaurants, cafes, bars, and food service operations that require accessible refrigeration at the prep line, this unit fits neatly beneath standard countertops with an installation footprint of 30" (L) x 48.25" (W) x 35.56" (H).

This refrigerator holds 13.1 cu. ft. of storage across two adjustable epoxy-coated shelves, giving flexible interior configuration for varying container sizes. Electronic controls maintain 33°F–41°F, suitable for perishable food handling. The unit runs on 115V/60Hz single-phase power with a 1/5 HP compressor drawing 1.7A, connecting via a standard NEMA 5-15P plug for straightforward integration.

Self-closing doors with a 90° stay-open feature support efficient workflow during high-activity periods, while the EC fan motor pauses airflow automatically when a door opens — helping maintain stable internal temperatures. Hinges are available on both left and right sides, offering installation flexibility. Locks and keys are included, adding basic access control for shared kitchen environments.

The exterior and interior are constructed in stainless steel, valued in commercial food service for its durability and easy cleaning. Heavy-duty casters with brakes allow repositioning as kitchen configurations change while securing the unit during operation. This unit carries ETL Listed and ETL Sanitation Listed certifications, confirming compliance with recognized safety and sanitation standards. A 1-year warranty is included.
