Buy Now

WARRANTY
1 Year Warranty

SPECIAL FEATURES

- Triple Door Access**
 Three solid doors with left and right hinge options allow kitchen staff to access individual storage sections without disrupting the full cold zone.
- Adjustable Epoxy Shelves**
 Each of the three sections includes adjustable epoxy-coated shelves that resist corrosion and accommodate different pan depths and container sizes.
- ETL Certified**
 ETL Listed and ETL Sanitation Listed certifications confirm the unit meets established safety and sanitation requirements for commercial food service use.
- EC Fan Motor**
 The EC fan motor operates the evaporation system efficiently, and automatically stops when a door is opened to reduce unnecessary energy draw.
- Mobile on Casters**
 Heavy-duty casters with brakes allow the unit to be moved for deep cleaning or kitchen reconfiguration and locked securely in place during service.
- 1-Year Warranty Coverage**
 This undercounter refrigerator is backed by a 1 Year Warranty, providing a defined period of manufacturer coverage for commercial kitchen operators.

PRODUCT OVERVIEW

The Frigomax Series 72" Undercounter Refrigerator is a three-door solid-door unit designed for commercial kitchen environments where below-counter cold storage is a practical necessity. With a 20.5 cubic foot capacity spread across three sections, it fits comfortably into restaurant prep lines, bar setups, and food service stations that require accessible refrigeration without occupying standing floor space.

Measuring 72 11/16" (L) x 30" (W) x 35 9/16" (H), the unit is constructed in stainless steel inside and out, supporting the hygiene and durability demands of a busy commercial kitchen. Three adjustable epoxy-coated shelves are included per section, allowing kitchen staff to configure storage layouts to accommodate varying pan sizes and food containers. The unit maintains a temperature range of 33°F to 41°F, keeping ingredients within safe holding temperatures for food service operations.

Electronic controls manage the refrigeration cycle, while an EC fan motor supports efficient operation. The evaporation fan stops when a door is open, reducing energy draw. Self-closing doors with a 90° stay-open feature support hands-free loading in fast-paced kitchens. Left and right hinge locations are available for layout flexibility, and locks and keys add a layer of access control.

The Frigomax Series undercounter refrigerator runs on 115V/60Hz single-phase power, drawing 2.1A via a standard NEMA 5-15P plug for straightforward installation. Heavy-duty casters with brakes allow repositioning for cleaning or layout changes. ETL Listed and ETL Sanitation Listed certifications confirm compliance with commercial safety and sanitation standards. Sold individually, backed by a 1 Year Warranty.
