PRODUCT OVERVIEW

The ProKitchen Series Tray Slide is designed for commercial kitchens, cafeterias, buffet counters, and foodservice serving stations. It features a single tray slide structure constructed with 304 stainless steel and a silver finish. The unit measures 36.5" (L) x 10.2" (W) and is suitable for installation on refrigerated self-service buffet tables and cold food tables in commercial kitchen environments.

The ProKitchen Series Tray Slide is built using stainless steel material with 304 stainless steel grade for foodservice environments. The single tray slide design supports buffet and cafeteria serving needs with a smooth sliding surface. It is designed for front or back side installation depending on foodservice layout requirements.

The ProKitchen Series Tray Slide supports use in commercial buffet and cafeteria applications where tray handling and serving access are required. The compact 10.2-inch depth design supports placement along service counters. The stainless steel construction supports routine use in commercial kitchen environments.

The ProKitchen Series Tray Slide is compatible with refrigerated self-service buffet tables and cold food tables used in foodservice operations. It includes a 1-year warranty by the manufacturer. The structure is designed for installation flexibility on front or back sides of service counters in commercial kitchen setups.
