- ✓ **Certified Safe**

NSF Approved and ETL Listed for food safety and compliance.
- ✓ **Warranty Protection**

1-year parts and labor coverage by the manufacturer.

PRODUCT OVERVIEW

The KitchenCore Series KCGG24 commercial gas griddle is suitable for restaurants, hotels, and catering kitchens requiring flat-top cooking for multiple dishes. It is built with a stainless steel body in a silver finish for durability and a professional look.

This commercial griddle features 2 stainless steel burners, each rated at 30,000 BTU/hr, giving a combined output of 60,000 BTU/hr. The unit comes with a 0.5 in thick plate that provides consistent cooking results.

The griddle is equipped with manual controls and heavy-duty knobs that include heat protection grips for safe operation. It runs on liquid propane and requires a 3/4 in gas connection, making it suitable for busy kitchens. The unit is certified by NSF approval and ETL listing for safety compliance.

The overall dimensions of the unit are 24 in (L) × 30 in (W) ×14 in (H), and it is supported by a 1-year parts and labor warranty.
