SPECIAL FEATURES

- Large Work Capacity**
 A 31.9 cubic foot interior gives commercial kitchens ample refrigerated storage for pizza toppings and prepped ingredients during peak service hours.
- Self-Closing Doors**
 All three doors are self-closing with a 90-degree stay-open feature, supporting efficient access without interrupting prep workflow.
- ETL Certified**
 ETL Listed and ETL Sanitation Listed certifications confirm this unit meets recognized commercial kitchen safety and sanitation standards.
- Consistent Temperature**
 An operating range of 33°F to 41°F keeps ingredients within safe food handling temperatures throughout the kitchen shift.
- EC Fan Motor**
 The integrated EC fan motor delivers consistent refrigerated airflow throughout the cabinet interior, supporting stable temperature performance.
- Mobile Flexibility**
 Four casters allow the 93-inch prep table to be repositioned within the commercial kitchen as operational needs require.

PRODUCT OVERVIEW

The Frigomax Series 93-inch Pizza Prep Table is a three-door refrigerated prep station built for high-volume commercial kitchens, pizzerias, and restaurants that require reliable cold storage and an organized ingredient workspace in one unit.

Measuring 32 5/16" (L) x 93" (W) x 42 1/16" (H), this prep table offers 31.9 cubic feet of interior capacity across a fully stainless steel exterior and interior, making cleaning and sanitation straightforward in a busy food handling environment. The unit maintains a temperature range of 33°F to 41°F, keeping ingredients at safe holding temperatures throughout service. Three self-closing doors each include a 90-degree stay-open feature, allowing hands-free access during active prep work.

Electronic controls provide straightforward temperature management, while the EC fan motor supports consistent airflow throughout the cabinet. Three adjustable heavy-duty epoxy coated shelves offer flexible interior organization, and the unit is compatible with cutting boards and pans available separately —making it adaptable to different kitchen layouts and prep workflows. Four casters allow the unit to be repositioned as kitchen needs change.

Operating on 115V/60Hz single-phase power with a NEMA 5-15P plug and drawing 4.1 amperes at 1/2 horsepower, this pizza prep table is suitable for standard commercial kitchen electrical setups. The unit carries ETL Listed and ETL Sanitation Listed certifications, confirming it meets recognized performance and food safety standards for commercial food service environments. A 1-year warranty is included with each unit.
