- ✓ **Maintenance Features**
A self-clean system and automatic bin shut-off are incorporated into the unit design.
- ✓ **Certified & Warranted**
The unit is cETLus certified and includes a 1-year parts and labor warranty by the manufacturer along with a 5-year compressor warranty.

PRODUCT OVERVIEW

The ProKitchen Series Air Cooled Modular Ice Machine with Bin is designed for restaurants, cafés, bars, and commercial kitchens requiring ice production and storage in one unit. It produces up to 420 lb of full cube ice every 24 hours and includes a 200 lb storage bin. The stainless steel construction is paired with an air-cooled condenser using R290 refrigerant. Dimensions are 22.24" (W) x 26.3" (D) x 63.39" (H).

The ProKitchen Series Air Cooled Modular Ice Machine with Bin operates on 115 V, 10.2 A, single-phase power at 60 Hz and uses a NEMA 5-15P plug. Digital controls and a digital display provide operational information for foodservice staff. The unit features adjustable ice thickness and automatic bin shut-off. Foamed-in-place polyurethane insulation is incorporated into the cabinet design.

The ProKitchen Series Air Cooled Modular Ice Machine with Bin features a self-clean system for routine maintenance in commercial kitchen environments. The storage bin holds up to 200 lb of full cube ice for beverage service and food handling applications. Included accessories consist of an ice scooper, water hose, and drain hose. The unit is certified to cETLus standards.

The ProKitchen Series Air Cooled Modular Ice Machine with Bin is a freestanding unit equipped with 6-inch adjustable leveling feet for installation flexibility. Its air-cooled condenser and R290 refrigerant are part of the ice production system. It includes a 1-year parts and labor warranty by the manufacturer and a 5-year compressor warranty. The digital control panel supports daily operation in restaurant settings.
