Two-stream configuration supports separation of recyclables and general waste in commercial environments.
- ✓ **Steel Construction**
Steel body with dark gray finish supports use in indoor commercial environments.
- ✓ **Covered Top Design**
Covered top with tray shelf supports structured waste disposal areas.
- ✓ **High Capacity**
86-gallon capacity supports high-traffic waste management in public and foodservice areas.
- ✓ **Front Access System**
Front door access supports liner removal and cleaning operations.
- ✓ **Warranty Coverage**
It includes a 1-year limited warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series Decorative Trash Can is designed for high-traffic commercial environments such as lobbies, food courts, universities, and indoor public areas. Constructed from steel with a dark gray finish, the freestanding unit features a rectangular design with a multi-stream waste separation system. The structure supports organized waste and recycling collection in commercial spaces.

The unit measures 45.31" (W) x 19.69" (D) x 53.5" (H). It includes an 86-gallon total capacity with a two-stream design for separating mixed recyclables and general waste. The top access hole lid is constructed from steel and includes a covered top with a tray-style top shelf.

This decorative trash can includes front door access for liner removal and cleaning operations. The interior is fitted with two liners and a steel liner structure for waste containment. The opening size measures 13 13/16" W x 9 13/16" D for waste disposal access.

The unit is designed for indoor use and includes stationary installation. It is intended for commercial kitchen-adjacent and public-facing waste management applications. The unit includes a 1-year limited warranty by the manufacturer.
