- ✓ **UV Protection**
Double-pane tempered glass doors protect beverages from harmful UV rays.
- ✓ **Flexible Storage**
Four adjustable coated wire shelves allow customized organization.
- ✓ **Precise Cooling**
Digital controls with LED display maintain 33°F to 38°F consistently.
- ✓ **Easy Installation**
9 ft power cord with NEMA 5-15P plug provides simple setup in commercial spaces.

PRODUCT OVERVIEW

The CoolEdge Series CEBBC61 Back Bar Cooler is designed for bars, restaurants, and catering businesses that require reliable beverage storage. It features a black metal exterior with two swing glass doors. The double-pane tempered glass blocks UV light. Its interior LED lighting ensures products are visible. With a 15.5 cu. ft. capacity and four adjustable coated wire shelves, it provides flexible storage for drinks of various sizes.

Powered by a 1/5 HP compressor using R290 refrigerant, the cooler maintains consistent temperatures between 33°F and 38°F. The digital controls and LED display allow precise monitoring and control. An auto defrost system keeps performance efficient with minimal maintenance. The unit runs at 284 W, 2.66 A, 115 V, and 60 Hz, making it suitable for commercial electrical setups.

Measuring 61.125" (W) x 24" (D) x 35.88" (H), this commercial back bar cooler offers spacious storage. The 9 ft power cord with NEMA 5-15P plug ensures flexible installation. The unit is ETL Listed and ETL Sanitation certified, ensuring compliance with industry standards. It comes with a 6-month parts and labor warranty along with a 6-month compressor warranty.
