WARRANTY

1 Year Limited Warranty

SPECIAL FEATURES

- ✓ **High Capacity Storage**
64-gallon capacity supports structured waste collection in commercial kitchens and outdoor service environments.
- ✓ **Mobile Rollout Design**
Heavy-duty treaded wheels with 8-inch casters support movement across commercial and outdoor surfaces.
- ✓ **Ergonomic Handling**
Molded-in ergonomic handle supports structured movement in foodservice and facility management areas.
- ✓ **UV-Stabilized Build**
UV-stabilized virgin HDPE construction supports outdoor and operational use in maintenance areas.
- ✓ **Hinged Lid Access**
Hinged lid with 270-degree range of motion supports controlled waste access in operational environments.
- ✓ **Warranty Coverage**
It includes a 1 year limited warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series Trash Can is designed for commercial kitchens, outdoor service areas, garages, and park environments requiring structured waste collection. Constructed from virgin HDPE (High-Density Polyethylene) in a black finish, it features a rectangular mobile rollout design. The unit measures 29.5" (L) x 23" (W) x 44.56" (H) and supports a 64-gallon capacity for waste handling in foodservice and maintenance environments.

The ChefPro Series Mobile Rollout Trash Can is built using injection-molded construction with UV-stabilized HDPE material for structured outdoor use. It includes a hinged lid with a 270-degree range of motion and ergonomic molded-in handle for controlled movement. The design supports waste management workflows in commercial kitchen and outdoor operational areas.

The ChefPro Series 64-gallon Trash Can features heavy-duty treaded wheels with two 8-inch casters for mobility in foodservice and maintenance environments. The mobile rollout style supports structured waste transport in commercial kitchens, garages, and park applications. The lid is integrated with a hinged system for controlled opening and closing.

The ChefPro Series Trash Can includes a 1 year limited warranty by the manufacturer. It is designed for outdoor usage and includes UV-stabilized construction for structured durability in operational environments. The unit weighs 27.85 lb shipping weight for handling and installation planning in commercial and maintenance applications.
