SPECIAL FEATURES

- Capacity**
 The 21 cubic foot interior accommodates three epoxy-coated shelves, providing organized cold storage space for a commercial kitchen or restaurant operation.
- Self-Closing Door**
 The solid swing door includes a self-closing mechanism with a 90-degree stay-open feature, supporting uninterrupted workflow during food handling and service.
- Electronic Temperature Control**
 An electronic temperature control system maintains the cabinet between 33°F and 41°F, keeping refrigerated food within standard commercial holding temperatures.
- EC Fan Motor**
 The integrated EC fan motor supports efficient air circulation throughout the cabinet interior for consistent temperature distribution.
- Casters with Brakes**
 Four casters with individual brakes allow the unit to be moved for cleaning or repositioning and then locked firmly in place on the kitchen floor.
- ETL Certified**
 This reach-in refrigerator is ETL Listed and ETL Sanitation Listed, confirming it meets recognized electrical safety and sanitation standards for commercial food service use.

PRODUCT OVERVIEW

The Frigomax Series 27" Reach-In Refrigerator is a single-door, freestanding refrigeration unit suited for commercial kitchens, restaurants, and food service operations that require reliable cold storage in a compact footprint.

Built from stainless steel with a silver finish, this unit measures 32 1/16"L x 27"W x 82 1/16"H, offering 21 cu. ft. of storage across three epoxy-coated shelves. The right-hinged, self-closing solid swing door features a 90° stay-open function for efficient workflow during busy service. An electronic temperature control maintains 33°F–41°F, keeping refrigerated food within safe holding range.

The top-mounted compressor operates on 115V/60Hz single-phase power, drawing 1.7 amperes at 1/5 horsepower, and connects via a standard NEMA 5-15P plug. An EC fan motor supports efficient air circulation within the cabinet. The unit ships with four casters — each fitted with brakes — allowing it to be repositioned on a kitchen floor and locked securely in place. A lock and key system on the door adds an additional layer of access control.

This reach-in refrigerator is ETL Listed and ETL Sanitation Listed, confirming it meets recognized safety and sanitation standards for commercial food service environments. The unit is sold individually and is designed for freestanding installation in a commercial kitchen setting.
