- ✓ **Temperature Flexibility**
Adjustable mechanical thermostat supports convertible freezer and refrigerator operation from -11.2°F to 46.4°F.

✓ **Secure Access**
Solid lid with lock system and dual opening angles of 45° and 75° supports controlled storage access.

✓ **Certified Build**
cETLus Listed, ETL Sanitation Listed, CSA Listed, DOE Compliant, Energy Star Certified with 2 years parts & labor and 6 years compressor warranty.

PRODUCT OVERVIEW

Platinum Frost Series Chest Freezer by PFCF is a commercial chest freezer designed for restaurants, grocery stores, food trucks, garages, stores, and home frozen storage applications. It features a 30 cubic feet capacity suitable for bulk food storage in commercial kitchen and retail environments.

The unit measures 78.7" (L) x 33.3" (W) x 37.4" (H), supporting freestanding installation in commercial spaces. The coated steel exterior supports durability in food service environments, while the aluminum liner interior supports structured frozen storage organization. The white finish aligns with standard commercial kitchen equipment layouts.

It operates with an adjustable mechanical thermostat with convertible freezer and refrigerator functionality, supporting a temperature range from -11.2°F to 46.4°F. The compressor system with wrap-around cooling supports deep freeze performance across storage space for consistent temperature distribution in food handling operations.

The chest freezer includes a solid top open lid with lock system and lid opening angles of 45° and 75°. LED interior lighting supports internal visibility. It includes a manual defrost system with built-in defrost drain for maintenance handling in commercial usage environments. It includes a 2 years parts & labor warranty and 6 years compressor warranty by the manufacturer.
