- Digital Control**
Digital display and control system manage ice settings and operating functions.
- Self Cleaning**
Self-clean system is included for internal maintenance cycles.
- Undercounter Design**
Undercounter installation format supports placement in compact bar and kitchen workspaces.
- R-290 Refrigerant**
R-290 refrigerant is used with an air-cooled condenser system.
- Certified Build**
cETLus Listed, ETL Sanitation Listed, UL & NSF Standards are included.

PRODUCT OVERVIEW

The ProKitchen Series Undercounter Ice Maker with Bin is designed for restaurants, bars, hotels, and grocery store beverage and foodservice areas. It features a stainless steel 304 construction with a silver finish and an undercounter installation type. The unit measures 19.69" (W) x 17.72" (D) x 35.83" (H) and includes a 33 lb storage bin with a 75 lb product weight.

This undercounter ice maker delivers 80 lb of ice production within 24 hours and produces half cube ice sized 7/8" x 7/8" x 1/2". It operates using R-290 refrigerant with an air-cooled condenser, 110 V, 1 phase, 60 Hz, and 350 W power. The water pressure range is 19–80 PSIG with digital display and digital control system.

The unit includes auto shut-off when the storage bin is full and adjustable ice thickness control. It features a 5 ft power cord with NEMA 5-15P plug type. The interior is made of polyethylene with foamed-in-place polyurethane insulation. A self-clean system is integrated for internal cleaning operations.

This ProKitchen Series Ice Maker includes a hose, drain pipe, and ice scooper as part of the supplied components. It is built with adjustable leveling feet for installation stability. The system supports commercial kitchen environments requiring consistent ice output and compact undercounter placement.
