WARRANTY
1 Year Limited Warranty

SPECIAL FEATURES

- ✓ **High Ice Output**
Produces up to 500 lb of full-size ice cubes every 24 hours for commercial operations.

✓ **Digital Control System**
Digital controls with LCD display support straightforward monitoring and operation.

✓ **Energy Efficient Operation**
Uses R-290 refrigerant and Energy Star certified design for energy-conscious performance.

✓ **Commercial Electrical Configuration**
Operates on 115V, 1 phase power with NEMA 5-15 plug compatibility.

✓ **Commercial Safety Certifications**
ETL Sanitation Listed, NSF Listed, and Energy Star certified for commercial standards compliance.
- ✓ **Durable Stainless Steel Construction**
Built with stainless steel material for long-term use in commercial kitchen environments.

✓ **Intelligent Failure Alert System**
Integrated alert system helps identify operational issues during daily use.

✓ **Space-Saving Airflow Design**
Front in / front out airflow configuration supports flexible freestanding installation.

✓ **Full-Size Ice Cube Production**
Produces full-size cubes suitable for restaurants, hotels, beverage stations, and food service applications.

✓ **Manufacturer Warranty Coverage**
Includes a 1-year limited warranty for commercial service support.

PRODUCT OVERVIEW

The Platinum Frost Series Ice Machine Head is a freestanding ice machine designed for commercial kitchens, restaurants, and foodservice operations requiring continuous ice production. It produces full cube ice and supports high-volume ice handling in professional settings.

This ice machine head is constructed from stainless steel with a silver finish, supporting durability in commercial kitchen environments. It produces up to 500 lb of ice over 24 hours, supporting ongoing service needs. Airflow is designed for front-in and front-out operation, which accommodates placement flexibility in tight kitchen layouts.

The unit operates on a single-phase 115 V power supply with a current draw of 9.7 A and uses R-290 refrigerant. An LCD digital display provides monitoring and control, while the digital control system supports operation adjustments. It features an intelligent failure alert system to notify operators of operational issues.

The ice machine head measures 29.9 in width x 24.3 in depth x 22.4 in height. It is ETL Sanitation Listed for commercial foodservice use and includes a 1 year limited warranty by the manufacturer.
