## PRODUCT OVERVIEW

The ChefPro Series Glass Rack is a polypropylene glass rack designed for commercial kitchen cleaning supplies and warewashing operations. Proudly Made in America, this unit is classified as a glass rack and sold as 1/each. It features 16 compartments to organize glassware during washing and storage. The rack measures 19.88" (L) x 19.88" (W) x 5.5" (H), supporting standard warewashing systems and dish room layouts.

Constructed from polypropylene, this glass rack is suited for repeated use in commercial kitchen cleaning cycles. The blue color allows visual identification within cleaning supply areas and dishwashing stations. It features a clear cut finish that supports organized placement of glassware within each compartment. With 16 compartments, it separates glasses during washing to align with structured food service handling practices.

This unit weighs 5.69 lb, supporting handling and transport within busy restaurant dish rooms. It is NSF Listed, reflecting compliance with recognized food equipment standards for commercial kitchen use. The dishwasher safe feature aligns with automated warewashing systems commonly used in restaurant and hospitality environments. The rack is designed specifically for cleaning supplies usage in food service operations.

The ChefPro Series supports coordinated warewashing and storage solutions in restaurants, catering kitchens, and hospitality facilities. Its square dimensions of 19.88" width and depth allow compatibility with standard commercial dish racks. The polypropylene construction supports structured cleaning workflows in glass handling areas. It includes a 1-year warranty by the manufacturer.
