WARRANTY

1 Year Limited Warranty

SPECIAL FEATURES

- ✓ **Brass Construction**
The brass material relates to durability for repeated use in commercial kitchen dishwashing and food handling tasks.
- ✓ **Lever Handle**
The lever handle type provides manual control for rinsing and cleaning operations in a commercial kitchen.
- ✓ **Certified Standard**
NSF certification reflects compliance with food equipment standards, and it includes a 1-year warranty by the manufacturer.
- ✓ **Wall Mounted**
The wall-mounted design supports installation above sinks in restaurant and food service washing stations.
- ✓ **High Temperature Range**
The 180 degrees F temperature range aligns with hot water usage in food preparation and sanitation processes.

PRODUCT OVERVIEW

The ChefPro Series Pre-Rinse Faucet Assembly is a wall-mounted unit designed for commercial kitchen dishwashing and food preparation areas such as restaurants and food service stations. Constructed from brass, it reflects durability for frequent use in food handling environments. The faucet features a chrome finish with a silver color, contributing to a uniform appearance across commercial sink setups.

This unit is designed with an 8" faucet center configuration, aligning with standard commercial kitchen plumbing connections. It includes a lever handle type, supporting manual control during washing and rinsing tasks. The wall-mounted installation style relates to placement above sinks, commonly used in dishwashing stations and prep areas.

The pre-rinse faucet assembly is NSF certified, indicating compliance with food equipment standards in commercial kitchens. It supports a temperature range up to 180 degrees F, aligning with hot water requirements for cleaning and sanitation tasks. It includes a 1-year warranty by the manufacturer, providing standard equipment coverage.
